How Do You Want To Be Seen?

Senior Portraits

A time of accomplishment and great change,
there's little wonder high school graduation is celebrated
with such excitement.

We watch as our children become young men & women

What makes them beautiful?

What makes them unique?

What do I wear?

One of the most-asked questions from my clients. It comes back to...How Do You Want To Be Seen? This of course applies to your senior's portraits. It is so easy to go with trends and fads, but that will likely make the final product look dated. Look at some other people's senior portraits - if you can identify the era by their clothes there's a good chance they regret their wardrobe choice

That isn't to say you should avoid trends entirely, but plan to also bring something neutral and classic. It's better to bring the outfit and not choose that picture than to wish you had brought it along.

The important thing is to give it thought. The more thought you put into your shoot the more you'll love your experience.
